**AFFILIATED WITH MAHAYOGI GORAKHNATH AYUSH UNIVERSITY  
RECOGNIZED BY NCISM & MINISTRY OF AYUSH**

MODINAGAR, GHAZIABAD (NCR), UTTAR PRADESH

## **PUBLICATION SUPPORT**

### **Scholarly Publication Support**

The Divya Jyoti Ayurvedic Medical College provides a robust support system to facilitate the publication of scholarly work in reputable, peer-reviewed journals. This support is considered an indispensable service, as it ensures that the institution's research findings are effectively disseminated to the global academic community, thereby enhancing its reputation and contributing to the body of scientific knowledge.

The process of preparing a manuscript for publication is guided by a series of structured support services. Initial consultations are available to assist researchers in the strategic selection of a target journal. This selection is based upon a careful analysis of the journal's scope, impact factor, and audience, with the aim of maximizing the visibility and influence of the research.

Following journal selection, comprehensive assistance is provided for the detailed preparation of the manuscript itself. This includes, but is not limited to, guidance on structuring the document, formatting text and figures according to the journal's specific guidelines, and ensuring that all citations and references are presented with absolute accuracy. The technical editing of the manuscript is undertaken to refine the language, improve clarity, and ensure that the tone and style are appropriate for a formal academic audience.

Prior to submission, a pre-submission peer review may be conducted by a panel of expert faculty members. This internal review is designed to identify and address any potential weaknesses in the manuscript's methodology or argumentation, thereby increasing the likelihood of a favorable outcome from the official peer review process.

In the event of a revision request from the journal, support is provided in preparing a detailed response to the reviewers' comments and in revising the manuscript accordingly. This dedicated support framework underscores the college's commitment to ensuring that high-quality research is successfully transitioned into impactful scholarly publications.
